ABOUT ME

I am a dedicated individual who believes that work is a reflection of character. My background is defined not by a timeline, but by a relentless pursuit of excellence and a deep-seated passion for solving problems. I approach every challenge with precision and creativity, driven by the conviction that real growth happens at the intersection of curiosity and discipline.

EDUCATION

Gisma University of Applied Sciences 06/2025 – 06/2028 (Ongoing)
Bachelor of Computer Science • Berlin, Germany

Indian School Muladha, Oman 04/2022 – 04/2024

PROJECTS

1. Hangman Game (Python & MySQL)

An interactive command-line Hangman game built in Python, integrated with a MySQL database for persistent data logging, leaderboard tracking, session history, win/loss statistics, and multi-difficulty word banks stored in a normalised schema.

2. E-Sports Database Management System (MySQL)

A fully normalised relational database designed to manage e-sports tournament data — tracking team rosters, match results, player statistics, and seasonal standings. Built with MySQL, featuring complex JOIN queries and views for rapid statistical reporting and analysis.
